ALPS™ Lock with 4 Hole Plate   S496-T

Gear Type Locking Device with Plate

The ALPS Lock Flat Bottom includes a lightweight aluminum plate with a 4 hole pattern for attachment to a 4 bolt pyramid component. This lightweight locking device made of glass reinforced nylon exhibits better wear characteristics than derin or aluminum. The convenient one-way gear allows the user to push in or wind the limb into the socket. A unique feature of this lock is that if foreign material or clothing get caught in the gear, the housing can be removed freeing the pin.

- Smooth gear mechanism
- Quiet operation
- Convenient side mounted release button
- Infinite pin adjustment reduces play
- No weight limit

PRODUCT NO.

S496-T   **ALPS Lock with 4 Hole Plate**
